

SEVEN WAVES AWAY

Verse 1

There is not one moment I don't think of you
And all our glory days
And there was a mission
The cause and the vision
We have lived upon
And no time to analyze
We were in our stride
I saw the future far and wide
And I believe that you can talk to me

Chorus

I'll be seven waves away
Seven waves away
Seven waves away
I'll be seven waves away
Seven waves away
Seven waves away
Right or wrong
Even when the light is gone
Soldier of my dreams
I swear
I'll find whatever gets me through the night

Verse 2

I don't get to walk away so easily
They'll be no journey's end
But I got tomorrow
And always tomorrow
You can start again
And you know I will follow you
You'll be on my side
No greater love than you and I
And you know where to find me

Chorus

I'll be seven waves away
Seven waves away
Seven waves away
I'll be seven waves away
Seven waves away
Seven waves away
Eyes shine blind
I can hear the sound of love
Now I know the meaning of
Seven waves away
