When adorable, unspoilt Pandora Winchester comes out at the ball, she little suspects how her young life will soon be changed forever. What is the secret locked away in the library, guarded by the phantom Grey Lady and her druid harp? Who is the Duke of Ardboyne and what are his real intentions? He alone holds the key to the mystery of her true birth but first Pandora will have to evade the sadistic clutches of her detestable cousin Cedric. With her reputation compromised by her trespass onto the forbidden estate at Harefield Hall, how will Pandora regain her innocence and enter into her inheritance? The cross she finds in the woods is a clue, but its significance veils an even greater mystery than she could guess.

PANDORA'S DILEMMA is the first of the Regency Dilemmas series. It weaves together a fabulous blend of romance and mystery. Here is a wonderfully dashing yet circumspect view of the Regency period, heady with love yet concealing startling secrets and revelations. Not to be missed!

Dwina has published several previous novels, including a two-volume epic about the life of the Irish hero, Cormac mac Art.

Two further titles in the Regency Dilemmas will follow soon.
